## FAIRY COLLECTION

## Caramel & cie.

In the heart of an enchanting winter, as the first snowflakes gently fall, the air fills with magic and promises. In this fairy-tale atmosphere, an extraordinary spectacle unfolds in the eyes of mesmerized children, as Christmas approaches stealthily. Brilliant colors blend in a dazzling whirlwind: the passionate red of ribbons and baubles, the emerald green of garlands, the deep blue of Christmas skies, and the sumptuous gold of sparkling stars. At the foot of the Christmas tree, vibrant colors, glitter, and iridescent fabrics come together in a magical whirlwind. The gaze gets lost in this shimmering palette, transported to a fairy-tale universe where everything seems possible. The bedtime fairy tales come to life: princesses, dragons, elves, and benevolent magicians all make their appearance.

## IRIDESCENT COLLECTION

It's well known that a treasure hides at the foot of every rainbow. That treasure is an iridescent fabric we've discovered to illuminate your stores during the holiday season. Magical and trendy at the same time, it will delight children and parents alike, complementing our iconic glitter range with its beautiful rainbow reflections. Our enchanting collection turns little girls into magical princesses whose wands mesmerize the whole family, and little boys into remarkable magicians, ready to transform the house cat into a fantastic tiger.
